### Olds Minor Hockey Association Policy:

#### *Purpose of Evaluations:*

- The Association purposes to provide fair, consistent and comprehensive evaluations that will result in players participating at a level that is based upon their skill level when compared to athletes of the same age and category.
- The primary goal of the evaluations process is to provide the very best possible conditions for players to showcase their skills by providing a fair opportunity for the player to be seen as often and in as many situations as possible.

*Evaluations Participation Requirements:*

- All players must have their registration completed, fees paid in advance, the Association's Positive Participation Policy and all player and parent pledge forms acknowledged and signed prior to being allowed to participate in evaluation sessions.
- If a player participates in AA evaluations and has not paid for registration in the mainstream program, they cannot subsequently participate in mainstream evaluations until they have registered and paid the applicable amount.
- All players must participate in the evaluations sessions they are assigned to, unless exempted under the "Evaluations Exemptions Policy". Players who miss a scheduled session without receiving a formal exemption will be deemed to forfeit the evaluation skate that is missed.
- The Association may allow a player with a legitimate emergency to reschedule an evaluation skate in rare circumstances, however, will not permit the rescheduling of assigned evaluation skates for ice time, teammate, coach, evaluator, scheduling or any other preferences that could be perceived as giving advantage to the player. Players who miss a scheduled session without receiving a formal exemption will be deemed to forfeit the evaluation skate that is missed.

*General Evaluations Considerations:*

- The Association will assign skaters to evaluation sessions based on random assignment by the Registrar. Special requests and requests to be reassigned from assigned skates will not be considered by the Association, except for circumstances permitted under the "Evaluations Exemption Policy".
- The Association reserves the right for the independent evaluators to temporarily reduce the number of skaters to allow the evaluators better opportunity to evaluate players currently ranked in the middle of the group. If exercised, the reduction in skaters will only occur for one of the three evaluation skates.
- Skaters participating in U11 evaluation sessions must keep their shifts to a minute and a half or less. Skaters who do not respect this standard risk penalization on their evaluations scoring.

*Late Registration:*

- If registration occurs after the annual registration deadline, it must be approved by the Board of Directors for the player to be included in the team formation process.

The Board will consider late registration requests on a case-by-case basis, and consider factors such as:

- General Association and specific team numbers;
- Position needs in specific age divisions;
- The first-priority commitment to resident players; and/or
- Other relevant factors specific to the late registration request.

*Standard of Evaluators:*

- The Association engages independent evaluators on an annual basis to maintain impartiality of the evaluations process.
- The Association prescribes a minimum of three qualified and independent evaluators for every ice session during evaluations to ensure each player is comprehensively evaluated.

*Attempts to Influence or Interfere with Evaluators:*

- Attempts to approach, influence or interfere with evaluators before, during, or after the evaluations process will be reported to the appropriate Association designate by the evaluators, without exception.
